Re: Geneseo Yard-waste Collection

Effective April 1st yard-waste collection will begin for residents of Geneseo.

Residents who were subscribed to yard-waste service in 2018 will automatically be enrolled in yard-waste Service for 2019. Those residents will receive an invoice directly from Republic Services for the 2019 season by April 15th. To ensure uninterrupted yard-waste collection, please remit payment for the service by the date specified on your invoice. Previous subscribers do not need to call to set up service.

Yard-waste collection is available to Geneseo residents April through November by a separate prepaid subscription. Subscribers will be allowed one 95 gallon yard waste cart per week; additional material will require a separate tag.

If you are a NEW SUBSCRIBER in 2019 please contact Republic Services directly at **800-233-9634** and we will set up your account.

The 2019 Yard-waste subscription rate is \$88. Residents will also need a 95 gallon yard waste cart purchased through Republic Services. The cart cost is \$65 plus an \$11 delivery charge and sales tax. A credit card payment will be required.

A shorter fall yard waste collection schedule is offered as well. The cost of the fall collection is \$34 per season. If you had subscribed to this service last year you will automatically be re-enrolled for 2019. You can expect an invoice in late summer for the Fall yard waste collection.

New Subscribers will need to contact Republic Services at **800-233-9634**.

Thank you.
