

Southwest School Reading Night - November 29, 2012

Mayor Van Der Leest joined the list of guest readers at the Southwest School reading night. The Mayor selected the book "Is There Really a Human Race?" authored by Jamie Lee Curtis. The Mayor picked the book for several reasons. The book teaches the importance of making good choices, volunteering in your community, helping others, and how we love is how we learn to make our community and the world a better place. The book asks the questions; shouldn't it be about doing your very best? And make the world [Geneseo] better for the whole human race.

Officer Darren Jaros, from the Geneseo Police Department was also a guest reader.
